

MARYLAND

DEFENSE CYBERSECURITY ASSISTANCE PROGRAM

DCAP

The Maryland Defense Cybersecurity Assistance Program (DCAP) provides funding and assistance for Defense Contractors to comply with the DFARS and NIST 800-171 Standards for cybersecurity. The program which provides funding and resources for companies to comply with the cybersecurity standard is funded by the Department of Defense's Office of Economic Adjustment (OEA) through the Maryland Department of Commerce and is being coordinated by the MD MEP.

Defense contractors in Maryland generate more than \$57 billion in economic impact and the DCAP program will help these contractors comply with the Federal regulations necessary to continue providing services to the Federal Government.

PROGRAM GOALS

Strengthen Maryland's Defense Supply Chain

Provide Resources for compliance with NIST 800-171 Standard and DFARS Requirements

PROGRAM REQUIREMENTS

Must be a Defense Contractor with a physical location in Maryland

10% or more DoD related business OR a contract/procurement request for compliance.

PROGRAM PROCESS

PROGRAM APPLICATION

Please contact Sara Keith at skeith@mdmep.org for the brief program application.

NIST 800-171 GAP ANALYSIS

Funding is available to offset the cost for the NIST 800-171 gap analysis.

OUTCOMES & RECOMMENDATIONS

Plan of Action & Milestones, Compliance Score, and Technical Assistance recommendations.

TECHNICAL ASSISTANCE

Funding is available to offset the cost for remediation support and technical assistance.

800-171 GAP ANALYSIS

	COMPANY SIZE		GAP ANALYSIS COST
	< 20		 \$ 6,500
	20 - 100		 \$ 7,500
	100 - 250		 \$ 8,500
	> 250		 TBD

\$2,500

Grant Funding Reimbursement for the 800-171 Gap Analysis

TECHNICAL ASSISTANCE

Technical Assistance needs to be determined by the 800-171 Gap Analysis and level of compliance. Funding may be available to offset the cost of technical assistance and remediation with a dollar cap per per company and per category. See below for details.
